

Postcodes

An alphabetical list of postcodes throughout Australia

March 2023

How to find a postcode

To find a postcode simply locate the place name from the alphabetical listing in this booklet.

Some place names occur more than once in a state, and the nearest centre is shown after the town, *in italics*, as a guide.

Complete listings of the locations in this booklet are available from Australia Post's website. This data is also available from state offices via the postcode enquiry service telephone number (see below).

Additional postal ranges have been allocated for Post Office Box installations, Large Volume Receivers and other special uses such as competitions. These postcodes follow the same correct addressing guidelines as ordinary addresses. The postal ranges for each of the states and territories are now:

New South Wales	1000–2599, 2620–2899, 2921–2999
Victoria	3000–3999, 8000–8999
Queensland	4000–4999, 9000–9999
South Australia	5000–5999
Western Australia	6000–6999
Tasmania	7000–7999
Australian Capital Territory	0200–0299, 2600–2619, 2900–2920
Northern Territory	0800–0999

What if you can't find it?

With over 16,000 place names listed, this booklet should be adequate for most of your correspondence needs. If you cannot find a particular place name please call us on **13 POST (13 7678)**.

Australia Post also offers you the opportunity to look up a postcode on our website auspost.com.au/postcode and find the location of Post Offices for that suburb or postcode.

If you have a service problem

If you need product or service information please call us on **13 POST (13 7678)**.

If you have a complaint, you can also let us know:

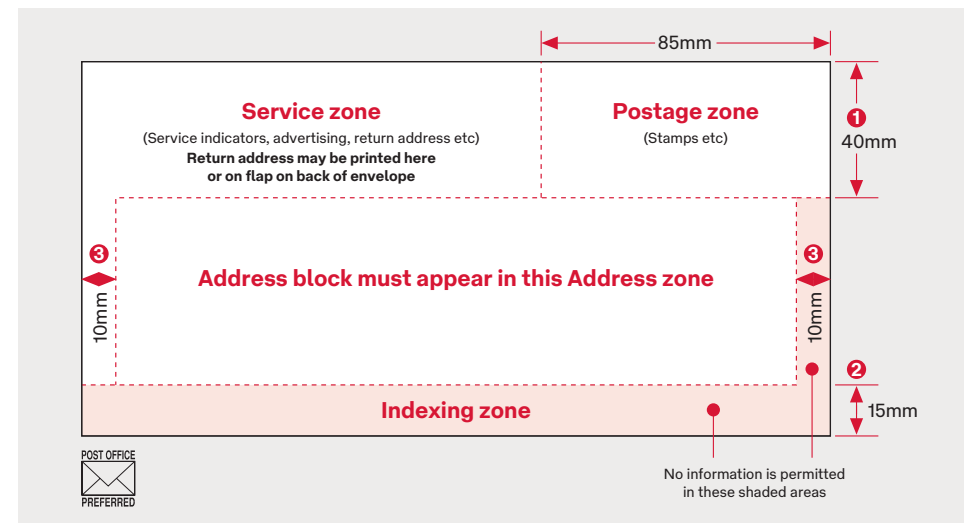

- by email via the website at auspost.com.au/contactus
- in person at any Post Office or
- in writing to the commercial manager in your state.

Addressing your mail correctly

With the use of high speed electronic mail processing equipment, it is most important that your mail is addressed clearly and neatly. This is why we ask you to use a standard format for addressing all your mail. Correct addressing is mandatory to receive bulk mail discounts.

It is important that the “zones” on the envelope, as indicated below, are observed at all times. The complete delivery address should be positioned:

- ❶ at least 40mm from the top edge of the article
- ❷ at least 15mm from the bottom edge of the article
- ❸ at least 10mm from the left and right edges of the article.

The address should preferably be confined to three lines:

- **The top line** – should contain the name of the addressee.
- **The second last line** – should contain the number and name of the street or thoroughfare or, if the mail is being delivered to a private box or locked bag, write the appropriate number on this line.
- **The last line** – should contain, in this order, the place name or Post Office of delivery, the state or territory name (in abbreviated form) and finally the postcode. This line should be printed in capitals with no punctuation and no underlining. For overseas mail, write the destination country, in capitals, as the bottom line.

In situations where extra clarifying information is needed, for example a company or property name, or non-address information like “Attention M/s”, this information should be placed above the last two lines of the address.

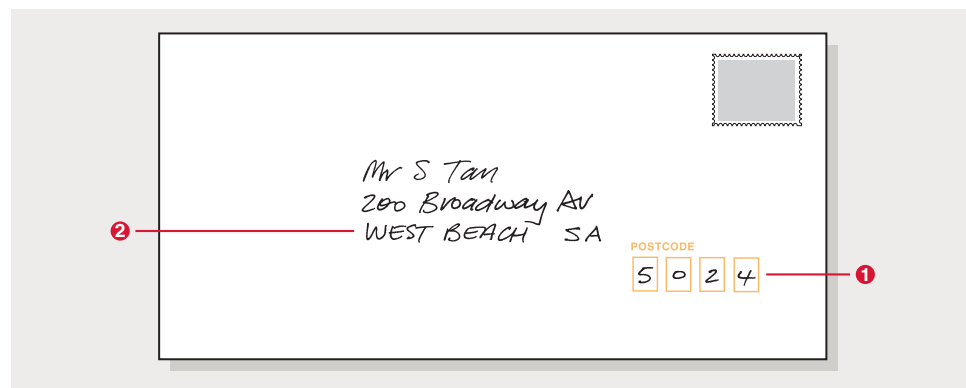

More addressing guidelines

The following guidelines will further help the letter sorting machines speed delivery of your mail.

- **Use the correct postcode** – Always include the correct postcode in the address. It is most important that the postcode appears as the last item in the address. If you are not certain of the postcode, check it – please don't guess.
- **Use clear print** – Print clearly, using dark ink, preferably black on white. Avoid red, orange and yellow inks.
- **Keep the address straight** – Keep the address lines parallel to the bottom edge of the envelope.
- **Don't stagger the address lines** – Avoid “staggered” address blocks where successive lines are indented.
- **Space words correctly** – Leave one or two character spaces between the place name or Post Office of delivery and the state or territory abbreviation and the same amount of space between the state or territory abbreviation and the postcode.
- **Do not underline** – Avoid underlining anywhere in the address, especially the last line.

Hand-addressed envelopes

- 1 If your envelopes are pre-printed with the four postcode squares, print the four numerals of the destination postcode clearly and neatly within the squares, as shown below.
If your envelopes do not have postcode squares, print the postcode after the state or territory abbreviation, the same as machine addressed envelopes, as shown at right.
Do not use the squares on hand-addressed envelopes for overseas addresses – even if the overseas postal code can fit into the squares.
- 2 The last line should be in capitals and include only the place name or Post Office of delivery and the state or territory, in abbreviated form.

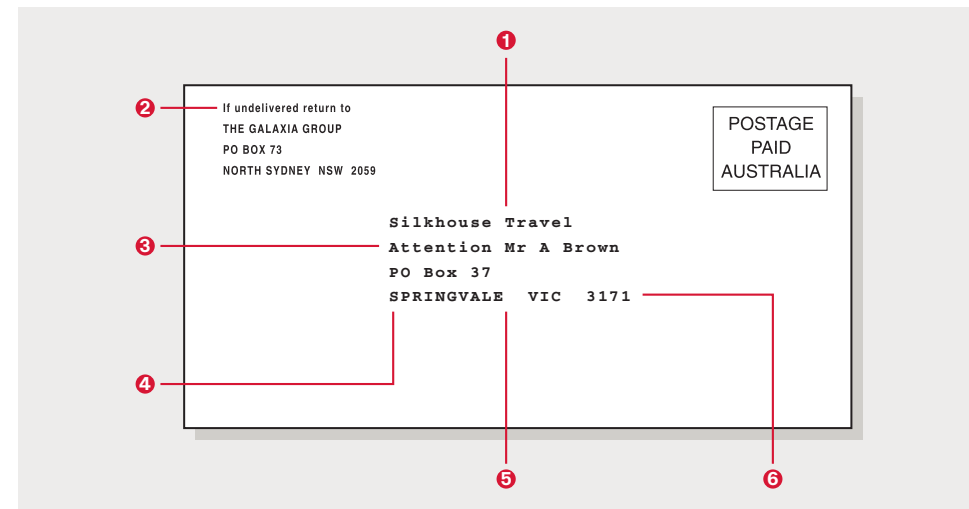

Machine-addressed envelopes

Use clear readable type. Replace worn out ribbons or cartridges.

Ensure the complete address is clearly visible through the window of window panel envelopes. No other information should appear through the window, even if the contents should move.

- 1 Australia Post recommends using a fixed pitch type font such as Courier 12 point, 10 pitch. Proportional fonts structured in 12 point can also be used. (eg: Helvetica, 12 point.) Ensure the print characters in the address do not touch or overlap.
Avoid italic, artistic, script, coarse dot matrix, extremely wide or narrow print fonts.
- 2 Always include a return address.
- 3 “Attention” or other details should not appear in or below the last two lines of the address.
- 4 The margin is aligned left.
- 5 The last line must be printed in capitals, without punctuation or underlining.
- 6 Always include the correct destination postcode in the last line. Leave one or two spaces only between the place name, the state or territory abbreviation and the postcode. Do not use postcode squares on pre-printed envelopes.
